EXPERIENCE

Bangor Township Schools — Auditorium Technician

2016 - 2020

I had helped install a new PA system in the auditorium. I had also programmed the new lighting system for not only theater use, but other district uses. I had set up portable PA systems for assemblies in the gymnasium. I had also set up portable PA systems for graduation of the football field. Whenever something went wrong, I fixed it; whether that be resoldering some wires, or completely reassembling a lighting fixture after I had done some maintenance to it.

Midland Center For The Arts — Sound Technician

August 1st 2018 - August 12th 2018

I set up their mics (changed batteries, set up compressors, set up gain, set up equalizers, etc.), and balanced a 25 piece orchestra, along with the 20 headpiece microphones that the actors were using.

Bay City Public Schools — Audio/Visual adviser

2018 - Present

I help with the theater programs between Handy Middle School, Western High School, and Central High School, assisting them with the technical aspects of their productions. I had first been brought in to help in 2018 and have stuck around teaching students how to properly operate sound and lighting equipment. In the winter of 2020, I installed a new digital sound board (X32) into Handy's auditorium. I have also run sound and assisted with the lighting set up at all 3 schools.
